Dust Control Abatement

Stillwater County will be coordinating with residents who are interested in having a dust suppressant applied to the county road adjacent to their residence. Stillwater County will assure that the road is properly prepared and, if you desire, will arrange for the application. You, as residents, must accurately measure and **properly mark each stretch of road** that you want treated with dust suppressant. It is important to note that Stillwater Road & Bridge Department will not be overseeing the application of road dust control. Stillwater Road & Bridge Department will prepare the county roadway prior to the dust control application.

Dustbusters Inc. of Billings will apply the dustguard (magnesium chloride). This product is a proven cost-effective dust suppressant and road stabilizer. The product will be applied after June 5, 2023, depending on weather and availability of application trucks. The cost for applying dustguard is:

\$1.10 /lineal foot (24' wide @ .5 gal/sq. yd.)

Stillwater County will not grade areas regularly where dust suppressant has been applied unless the County Road & Bridge Department determines it necessary for the convenience and safety of the traveling public and at that time and only that time will those roads be graded.

If you are interested in working with Stillwater County to have dust control abatement applied this year, please fill out the form supplied and return it with a **check made out to Dustbusters Inc.** Please mail in the form and check or deliver in person to:

Stillwater County Road & Bridge Department

865 Old U.S. 10 West

Columbus, MT. 59019

, as soon as possible but no later than May 22, 2023. Stillwater County cannot guarantee dustguard application for forms received after this date. Other dust control applicators are available and can be used if you desire. Stillwater County does not endorse Dustbusters Inc. or any other applicator, but are making them available for those who wish the County to coordinate the effort for them. If you use another applicator, they must coordinate the applications with Stillwater County Road & Bridge Department Superintendent.

Sincerely,

Stillwater County Road & Bridge Department

Superintendent,

Ben McVittie

DUST CONTROL ABATEMENT FORM

2023

Please provide the following information if you are interested in dust control.

NAME: _____

ADDRESS: _____

LENGTH OF ROAD: _____ x \$1.10 = _____

Dust Guard - \$1.10/lineal foot (24' wide @ .5gal/sq.yd.)

CHECK #: _____
